#### Aims and objectives

What do you wish to achieve by providing regulated activities? How will your service help the people who use your services?

Please use the numbered bullet points:

1. For our residents receive a high standard of personalised care taking in to account their choices and opinions wherever possible. To promote equality and diversity within the home for both staff and residents. 2. For our residents to live within a safe homely environment where they feel free to voice their opinions and contribute to the day-to-day life at the home. For our residents to be supported and enabled to live out their life at Wild Acres if that is their wish.

3. To identify where we can improve our service to the residents by providing regular Quality assurance surveys and acting on the feedback received.

4. To strive to ensure we 'make a difference' to the quality of life for our residents by listening and learning, ensuring they get the most out of each day. We want our residents to always feel we have time to listen and that we care about their needs and wishes.

5. Care plans are discussed with residents and their families when they first move in to the home and following any significant changes. Their views and opinions are incorporated into the plans wherever possible, making them feel they have control over their life.

6. To provide flexible mealtimes for the residents and take in to account personal needs and preferences. To provide varied menus that are changed according to the season, with input and suggestions from the residents welcomed.

7. To hold regular staff meetings and daily informal discussions concerning the care needs of the residents. Our team of dedicated carers are greatly valued and supported to develop to their full potential. Our aim is for people who come to live at Wild Acres to feel valued, safe, relaxed and happy and to have a purpose for each day.

All of our care staff complete an intensive induction programme and continue to receive ongoing training and mentoring in all relevant areas, including moving and handling, safeguarding adults and dementia.
